- Color Staining

LAB TESTS

MANUFACTURING

Preparatory: Warping and Sizing Machine(Karl Mayer, Germany): ASFL has this warping and sizing machine which ease the treatment of wrapped yarn to be prepared for high cover factor fabric, reducing harshness, weakness, increasing tensile or breaking strength.

Weaving: ASFL comprises of both Rapier(optimex-1) and Airjet (Summum) looms are the latest invention of Picanol hailed from Belgium with production capacity of 60,000 Mtr/day.

Dyeing division: is equipped with BENNINGER, COLLAR, REGGIANI originated from Europe, with fully computerized Color Kitchen and Auto Dosing system having 3.2 Million Yards dyeing and finishing capacity.

Printing: As a composite fabric manufacturing unit, printing is another companion of dyeing. We have Rotary Screen Printing Machine & 32 Head Digital Printing Machine derived from Italy.

The simultaneous 12 Color (Rotary) & Digital printing capability of the machine makes it incomparable in aspect of diversified printing category.

Yarn Dyeing: Our yarn dyeing division is also equipped with state of the art dyeing machinery of FADIS, GALVANIN, SSM, STALAM originated from Europe. We have 12 ton/day yarn dyeing capacity

Finishing: To finish our products, we ensure the use of the best and ideal chemicals. We strictly maintain international standard and can produce fabrics with any kind of finish like Peach finish, Regular finish, Soft finish, Brush finish, Paper Touch, Wrinkle-Free, Water repellent, Silky finish, Carbon peach, Sand peach finish, Anti microbial finish, Easy-Care etc.

DELIVERY

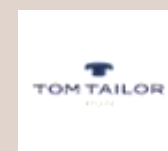

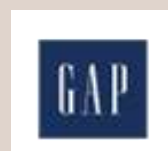

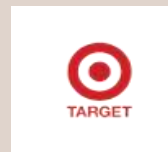

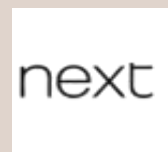

Our in-house shipping and logistics team efficiently process and manage the delivery and logistical needs of our clients order. A specialised member of our team is on hand to process payments, arrange and update shipping documents, negotiate with freight forwarders on your behalf and deliver on any special arrangements that are required with a central representative on hand to update you in real time.

CUSTOMER

Our whole business model is based on our respective customers. The products are designed and manufactured by maintaining the quality and latest trends to satisfy our customers. We are currently working with customers of Europe zone, North America, Middle east, Africa, Australia etc. Our Vision is to expand the business over Europe, USA, Asia, Australia, Japan and Scandinavians zone.

SOCIAL RESPONSIBILITY

We take great care of our beloved ecology. We never do anything in our manufacturing hub that does harm to the environment. Child and forced labour are strictly prohibited in our industrial collaboration. Our occupational health and safety is a standard maintained with custom and security compliance.

CERTIFICATION

From beginning, we never compromised with quality and performance. To ensure quality product, we currently have equipped us with following certifications by obtaining buyers trust and conforming quality.

Starting its journey in the late 70's, Amanat Shah Group (ASG) is a part of a family business legacy for more than 130 years. It has become synonymous with superior quality, excellence and trust in the textile industry. ASG takes pride in the country's glorious textile industry, which has grown from a traditional Bangladeshi production network to a global entity through exports.
